ECORASTER® SOFTGROUND-Floor Tile

ECORASTER®
SOFTGROUND

The all-in-one floor tile for equestrian sports

- ✓ With integrated ECORASTER®-system
- ✓ Modular use and combinations possible
- ✓ Simply clicks together – no need for adhesive
- ✓ Unique heat and sound insulation
- ✓ Hygienic, easy to clean
- ✓ Saves on bedding and disposal costs

Evolutionary and versatile

The all-in-one floor tile

ECORASTER® SOFTGROUND is a new high-function floor tile system for equestrian sports. Due to the soft and extremely tough rubber blend, ECORASTER® SOFTGROUND offers shock-absorbing and joint-gentle properties and also guarantees optimum grip and stability for horses in wet conditions.

Optimum thermal insulation

The stabilising ECORASTER® substructure functions as an air cushion and offers extremely high levels of acoustic and thermal insulation. This in turn leads to reduced bedding costs and maintenance expense on the one hand, while protecting horses from ground cold, thus preventing chill-related diseases.

12 mm

The **studded all-round floor tile**
330 x 330 x 12 mm (w x l x h)
Weight: 2,05 kg (w/out ECORASTER)

Studded for optimum grip – non-slip and safe.

12 mm

The **smooth all-round floor tile**
330 x 330 x 12 mm (w x l x h)
Weight: 2,05 kg (w/out ECORASTER)

A smooth surface – for easy cleaning.

12 mm

The **coloured floor tile**
330 x 330 x 12 mm (w x l x h)
Weight: 2,05 kg (w/out ECORASTER)

Inject some colour – into your stables – also available in your preferred shade.

22 mm

The **heavy-duty floor tile**
330 x 330 x 22 mm (w x l x h)
Weight: 3,20 kg (w/out ECORASTER)

Only for regular heavy wear. Available smooth, studded and coloured.

» **SOFTGROUND – the optimum solution for all boxes, stables and wearing surfaces**
Flexible, insulating and easy to clean

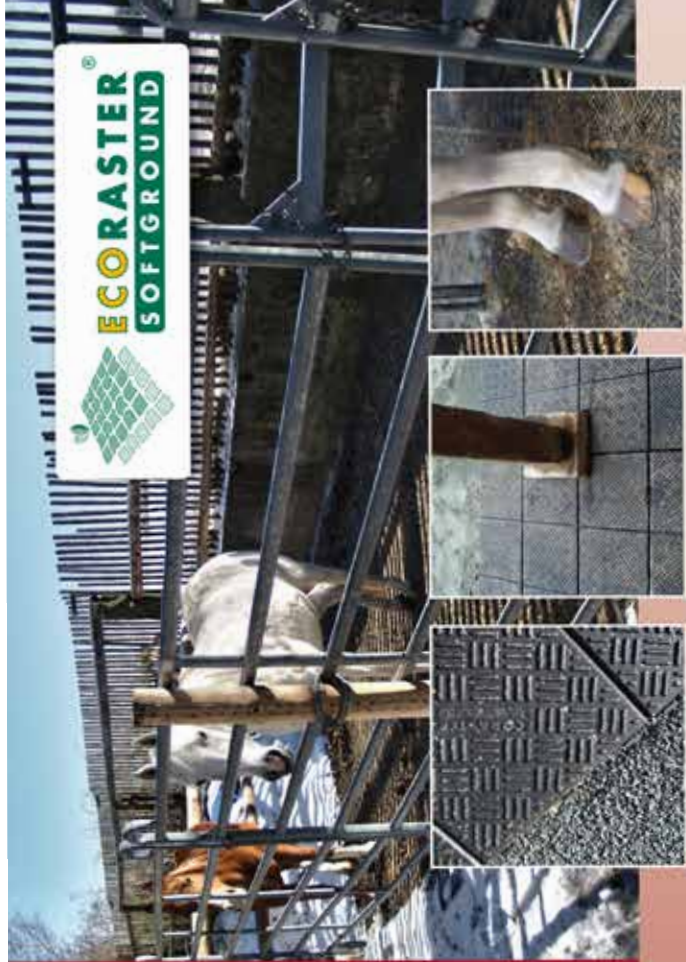

Applications

Boxes and stables
Paddock and open stables
Exercise yards
Foot and bridle paths, feeding areas
Combined standing and lying areas
Washing pens and washing areas
Recovery rooms in veterinary clinics
Mobile floors in tent stables and paddock sheds
Mobile floors in horseboxes

Green Way Pavements™
Exclusive Northeast USA Distributor
for **Purus North America, Inc.**

Advantages

Unique heat insulation
Highly shock-absorbing, gentle on joints
Extreme surface stability
Reduced levels of daily maintenance and cleaning
Significant bedding savings
Easier to muck out
Extremely robust and hygienic
Compatible with the ECORASTER system
Easy to handle, simple to install
No need for adhesives
Single tiles can be replaced at any time
Two grades of tile for different degrees of wear
Also ideal for uneven surfaces

Easy to handle, simple to install

Using ECORASTER® SOFTGROUND couldn't be easier – cutting tiles to shape to fit stables and areas that aren't 100 % straight is no problem. Thanks to its modular design, single tiles may be replaced at any time. **Both ECORASTER® and ECORASTER® SOFTGROUND are supplied pre-assembled. It is possible to purchase elements individually.**

Install ECORASTER® SOFTGROUND is quick and easy

There's no messy glueing, and ECORASTER® SOFTGROUND can even be layed on non-concrete, uneven surfaces where a layer of chippings has been applied.

Step 1

Installation

Place and align all pre-assembled grid tiles on chippings or on a concrete surface.

Step 2

Positioning and aligning

Like a puzzle individual tile modules can be placed up against each other and aligned.

Step 3

Easy lock system – no adhesives needed

Apply light pressure with your foot to click tiles together quickly and easily.

Step 4

Instant load-bearing surfaces

Done! The SOFTGROUND surface is now ready for immediate use.
