sealing	\$21.70	\$4.15	\$13.00
20			
sealing	\$22.10	\$4.15	\$13.00

DOLLARS/SQ. FT

through 20 years Price per sq ft	
Asphalt	\$22.10
Concrete	\$13.00
Pl. Grid-Paver	\$4.15

Asphalt Price begins around \$3.50 sq ft for the base layer. Then a year later needs a top layer \$2 per sq ft. Then every year needs sealing \$0.4 /sq ft. After 7 years it is cracked and destroyed and needs to be redone, excavate and put base layer, then top layer, then sealing every year. After 15 years it is again cracked and needs again base layer, then top layer, then sealing every year. After 20 years price of asphalt comes to approximately **\$22.10 per sq ft.**

Concrete Price begins around \$10 per sq ft. After 10 years needs upheaval and crack repair. After 20 years price of concrete comes to approximately **\$13 per sq ft.**

Plastic Grid-Paver Price begins around \$3.55 per sq ft installed (Price in Broome County, NY for average DIY installation of plastic grid 30 mm high). Every 5 years add little gravel, if needed, \$0.2 per sq ft. After 20 years price of Plastic Paver-Grid comes to approximately **\$4.15 per sq ft.**
